

# YANGIN POMPALARI FIRE PUMPS

## DİKEY TÜRBİN YANGIN POMPASI CENTRIFUGAL FIRE PUMPS VERTICAL TURBINE

### MODEL SFP

MARKA / BRAND	
ONAYLAR Approvals	UL, FM, CE
KAPASİTE Capacity	200 GPM - 2000 GPM
BASINÇLAR Pressures	40 PSI - 359 PSI
MAKS. ÇALIŞMA BASINCI Max. Working Pressure	290 PSI - 359 PSI
HIZ Speed	1450 RPM - 1480 RPM - 1760 RPM 1780 RPM - 2900 RPM - 2980 RPM 2950 RPM - 3000 RPM

Notlar: 1-Tüm pompalar, maksimum çalışma basıncının minimum %150'sine kadar hidrostatik olarak test edilmiştir ve maksimum çalışma basıncının iki katına dayanmaktadır. 2-Sürücü tarafından bakıldığında tüm pompaların saat yönünde dönüşü vardır. 3-Tüm pompalar yatay tek kademeli pompalardır. 4-"Pompanın üzerinde işaretlenen anma hızı, listelenen/onaylanan anma hızının +/-%4'ü dahilinde değişebilir. Örnek: 3000 RPM pompa, 2900 RPM Sürücülerle çalıştırılabilir." 5-NFPA 20 tasarım ve kurulum gereksinimlerine uygun UL LİSTELİ VE FM ONAYLI POMPALAR.

Notes: 1-All pumps are hydrostatically tested to minimum of 150% of its maximum working pressure and can with stand double the max. working pressure, 2-All pumps have clock-wise rotation when viewed from the driver side. 3-All pumps are horizontal single stage pumps. 4-"The rated speed marked on the pump can vary within +/-4% of the listed/ approved rated speed example: 3000 rpm pump can be driven with 2900 rpm drivers." 5-UL LISTED & FM APPROVED PUMPS compliant to NFPA 20 design & installation requirements.
