

KÜRESEL VANALAR - BALL VALVES

Malzemeler / Materials

Gövde / Body : CW617N - EN 12165 Krom kaplı piriñ / hot-pressed brass, chrome plated
 Kapak / Sleeve : CW617N - EN 12165 Krom kaplı piriñ / hot-pressed brass, chrome plated
 Mil / Stem : CW614N - EN 12164 Piriñ, sörtürmeyi önleyen ve sızdırmazlık riñgleri ile /
 bar turned brass, with inner and outer anti-friction rings and double sealing O-ring
 Küre / Ball : CW617N Krom kaplı piriñ / brass, chrome plated
 Conta / Gaskets : Düşük sörtürme profilili teflon / PTFE with low friction profile
 Kol / Handle : Plastik kaplı çelik / steel lever with plasticized coating
 Somun / Nut : Korozyon dayanımlı kaplama, garanti mühürü ve hologramlı / with anti-
 corrosion coating, guarantee seal and hologram

Uygulama Alanları / Field of application

Su için maks. çalışma basıncı / Max. working pressure with water: 4,2 MPa (42 bar), from 1/2" to 3/4"
 3,5 MPa (35 bar), from 1" to 2"
 Maks. çalışma sıcaklığı / Max. operating working temperature: 120°C
